Mac OS X App In Launcher

Free Download

Jan 18, 2018 Hello! I have now tried to move my apps in the app launcher at I can't access the options to pin it as some guides tells me to do and I can't move. It also provides a simple method of creating bookmarks for any of your website links. The Launcher provides you with a convenient way to access any release of the Site Management Portal (SMP) and System Configuration Tool (SCT) user interfaces.
