ШУМ

Звуки, которые вы производите при движении и стрельбе, могут быть услышаны животными. Чем быстрее вы идете, тем громче звуки шагов; передвижение по подлеску – особенно шумное.

Индикатор звука представлен иконкой динамика в нижнем правом углу интерфейса: чем больше полосок на шкале справа от него, тем громче.

Шум окружающей среды – ветер и дождь – может заглушить звуки вашей активности: используйте это для незаметного перемещения.
